Profile

Creative and results-driven **UI/UX Designer** with 13+ years of experience designing intuitive, user-centered digital products across enterprise, SaaS, and CRM platforms.

Specialized in end-to-end product design, from user research and information architecture to wireframing, prototyping, usability testing, and high-fidelity UI design. Expert in Figma, Adobe Creative Suite, design systems, accessibility (WCAG), and mobile-first responsive design.

Extensive experience designing and enhancing Salesforce applications, including creating user-friendly interfaces, Lightning Web Components (LWC) based experiences, and custom page layouts using Salesforce Experience Builder. Skilled in collaborating with Salesforce developers and stakeholders to deliver scalable, consistent, and business-focused solutions.

Strong understanding of React and Angular based application design, working closely with development teams to translate complex requirements into intuitive and engaging user experiences.

Proficient in developing design systems, reusable UI patterns, and developer-ready specifications to ensure pixel-perfect implementation. Experienced in leveraging AI-powered design tools, AI-assisted workflows, and design-to-code processes to improve efficiency and accelerate product delivery.

Additional expertise includes micro-interactions, animations, illustrations, video editing, SharePoint page design, and executive presentations. Adept at working in Agile environments, leading cross-functional collaboration, and delivering impactful digital experiences that drive user engagement and business outcomes.

Utilizing AI-powered tools including Figma Make to enhance UI/UX workflows, generate design variations, and improve productivity

Worked with MCP servers and AI-assisted workflows to streamline design-to-code conversion processes. Integrated design systems with frontend development pipelines to transform UI designs into clean, responsive, and developer-ready code efficiently

Created professional business presentations (ppt) tailored for client pitches, marketing strategies, and project proposals. Designed visually engaging slides with clear storytelling, data visualization, and brand-aligned layouts to improve communication and presentation impact.

Adept in Agile environments, collaborating with stakeholders and developers to deliver scalable, responsive, and impactful design solutions.

Work Experience

Marlabs LLC

Technical Lead

Jun 2016 – present
Kochi, India

- Led UX design for the RFX platform, a Salesforce-integrated bid and pricing management tool used by global teams across Sales, Pricing, Product Line Management, and Freight.
- Conducted over 5+ stakeholder interviews to map workflows, identify bottle necks, and uncover user pain points across strategy, pricing, and volume approval stages.
- Designed intuitive interfaces and interaction flows for complex enterprise features such as multi-edit line items, volume strategy planning, freight allocation, and pricing wireframes.
- Created wireframes, prototypes, and high-fidelity UI in Figma, improving usability and task completion for users across global functions.
- Simplified the user experience by rethinking the chevron navigation mode and restructuring data-heavy screens using role-based views and progressive disclosure.
- Collaborated with cross-functional teams (Salesforce Devs, Product Owners, BAs) in Agile sprints, ensuring seamless handoff and development alignment.
- Developed reusable UI components and maintained a scalable design system to ensure consistency across multiple modules of the RFX platform.
- Introduced visibility enhancements and contextual tooltips to reduce user confusion during freight and pricing handoffs.
- Participated in UX audits and usability testing to validate design improvements and prioritize future enhancements.
- Ensured platform compliance with accessibility standards (WCAG) and responsive design practices for desktop use.
- Created user interface for web and mobile applications developed in Python, ASP.NET, Java technologies and React, Angular frontend technologies
- Designed new products advertisements and communicate with clients to ensure that their goals and requirements were fully met.
- Worked closely with various Marketing & Technical Teams, give training and coordinate multiple design interns, and work on the improvement of the whole design process
- Created designs for business documents ppt
- Created application training videos for client

CCS Technologies Pvt Ltd

UI designer

Aug 2010 – Jun 2016
Kochi, India

- Designed pixel-perfect web interfaces that maintain high visual appeal and functionality, aligning with brand identity and user expectations.
- Developed responsive websites using HTML5, CSS3, and Bootstrap, ensuring compatibility across multiple devices and platforms.
- Converted prototypes into fully functional HTML pages, adhering to design specifications and best practices for seamless user experiences.

- Created detailed wireframes and prototypes that focus on usability, navigation, and engagement, effectively communicating design concepts to stakeholders.
- Conducted usability testing & design refinement based on client and stakeholder feedback, ensuring continuous improvement and user satisfaction.
- Collaborated with developers, project managers, and stakeholders to align design strategies with business goals and technical feasibility.
- Managed client feedback and iterative design improvements to enhance project outcomes and user engagement.
- Maintained up-to-date design documentation, ensuring consistency and streamlined workflows within cross-functional teams.
- Created custom designs for modern SharePoint and Liferay

Awards

Spot Award Marlabs LLC	Mar 2024
Best Co-worker Marlabs LLC	01 Oct 2021
Most Valuable Player - MVP Marlabs LLC	02 May 2019

Education

Keltron Certified Multimedia Expert Keltron Animation Campus	Sep 2006 – Jul 2007 Kottayam
Bachelor's Degree Baselius College	Jun 2003 – Mar 2006 Kottayam

Skills / Tools

Product Design

User Journey Mapping, Feature Prioritization, Product Strategy, Design Thinking, MVP Definition, Roadmap Planning

UI Design

High-Fidelity Mockups, Responsive Design, Visual Design Principles, Mobile-First UI, Motion UI, Design Tokens, Branding, Typography

User Research and Testing

User Interviews, A/ B Testing, Usability Studies, Heuristic Evaluation, Competitive Analysis, Data Driven Design, UX Metrics

UX Design

Wireframing, Prototyping, Usability Testing, Design Systems, Accessibility (WCAG), Information Architecture, Interaction Design, Micro interactions, UX Writing

AI & Mobile Experience Design

GenAI, Copilot UX, Predictive UI, AI Recommendation Systems, Android (Material Design), iOS, Responsive Design.

Leadership & People Management

Design Hiring & Training, Stakeholder Communication, UX Roadmap, OKRs, KPI Measurement

Design Tools/Software

Figma, Adobe XD, Sketch, InVision, Zeplin, Miro, FigJam, Adobe Photoshop, Adobe Illustrator, Adobe Premier

Technologies & Development Collaboration

HTML5, CSS3, JavaScript, Bootstrap, Tailwindcss, Angular, Material UI, Angular / React Components, Salesforce, Agile (Scrum), Jira, Confluence, Git, GitHub, GitHub Copilot

Collaboration

Cross-Functional Team Collaboration, Requirement Gathering, Workshop Facilitation, Agile Workflows, Developer Handoff
